## **PRESS RELEASE**

June 2016

# Mitsubishi Electric Technical Training Centre

**Mitsubishi Electric is proud to launch a technical training centre where installation engineers can receive practical training in our products.**

Most of our climate control products are represented at the centre and in the autumn of 2016 the aftermarket division of Mitsubishi Electric will be arranging training sessions. This will allow individuals to obtain theoretical and above all practical training in how our products work.

[The autumn's course schedule is available here](#) (Page in Swedish).

### **Important information:**

*Technical courses aimed at technicians in the field and installation engineers working on the fault-tracing and commissioning of units. In addition to the theoretical part of the course there are also practical exercises.\**

*Course fee: SEK 1,550 per person excl. VAT. Course materials and lunch included. In the event of your non-attendance the entire fee will be debited. You can cancel your enrolment up to 10 days before the course.*

*Registration can be sent to Peter Lindh by email: [peter.lindh@se.mee.com](mailto:peter.lindh@se.mee.com)*

*A confirmation will be sent out approximately one week before the course.*

*\* Courses held on-site at the customer's premises will need an installed unit for RAC courses and an installed unit for PAC courses. A minimum of 6 and a maximum of 12 people per course. If fewer than 6 people are registered then the course will be cancelled.*

**Mitsubishi Electric** is a global leader in the research, manufacturing and marketing of electrical and electronic equipment used in communications, consumer electronics, industrial technology, energy and transportation.

Mitsubishi Electric Sverige is part of Mitsubishi Electric B.V. and is responsible for sales and the support of its own climate control products such as heat pumps and air conditioning in Sweden, Finland, Denmark and the Baltic states.

Its head office is in Stockholm with sales offices in Gothenburg and Lund. The company has operated in the Nordic region for more than 30 years and has over 60 employees.
